HAZARDOUS BUT RECYCLABLE METAL.

We purchase old used Batteries from users and recycle them to recover LEAD metal thus offering safe disposal and protecting the environment.

You are encouraged to return your old used Battery to the point of sale at our factory outlet in Bugolobi for either monetary compensation or a credit discount towards the purchase of your new Battery.

- 2) UBL is determined to reduce LEAD exposure to humans by adopting production automation and appropriate work safety measures.
